Personal Profile

Junior web developer with experience of HTML, CSS, JavaScript, Node.js & React. Passionate about writing clean code with a flawless UI.

Excellent organisation and communication skills, enabling effective teamwork, alongside confidence in working alone.

Excited by the fast-paced, ever-evolving nature of the industry, thrives under pressure and relishes in challenges.

Tech Skills

- HTML
- CSS
- JavaScript
- jQuery
- AJAX/API
- Node.js
- Bootstrap
- Node.js
- React
- Git
- GitHub
- VS Code
- Problem-Solving

Projects

Ethereum Wallet Balance Checker Web App

Successfully built an app as a group using API's, with the final app closely representing the wireframe. Productive communication aided us in the delegation of tasks, and our use of git branches and merges.

Deployed URL: <https://lillyllex.github.io/eth-wallet-checker/>

GitHub Repo: <https://github.com/Lillyllex/eth-wallet-checker>

Daily Planner Web App

Created an app with clean, concise JavaScript code, which saves data to the local storage and displays even after page refresh.

Deployed URL: <https://lillyllex.github.io/Work-day-diary/>

GitHub Repo: <https://github.com/Lillyllex/Work-day-diary>

Team Bio Generator in Node.js

Used Node & NPM inquirer to gather information and render results to a HTML.
